

6 NWS SAFETY TIPS FOR PETS

Check pets regularly for wounds, cuts, and sores

Ensure that dogs and cats are on FDA-approved flea and tick prevention

Keep wounds clean and immediately contact a veterinarian if wound appears to be getting worse or not healing

Do not use livestock products or home remedies on pets unless directed by a veterinarian

Be on the look out for maggots, foul odors, excessive licking or scratching, restlessness, and fatigue

Keep pets away from sick or dead wildlife
